## SAVE THE WATER

Lexington is seriously threatened with a water famine. The reservoir is about empty. This is owing to the continued drought and also from the fact that during the cold spell consum-

ers allowed the water to waste. At a meeting of the Town Council

it was ordered that the water be cut off from the town during the day from 2 to 5 p. m. and during the night from 8 to 5 o'clock in order to replenish the supply in the reservoir. Should a fire occur the firemen would be powerless. We hope our people will see the im-WATER!

DR. CURRELL'S TRIP.

The Charlotte (N. C.) Observer comments as follows on Dr. Currell's lecture at Red Springs:

"Dr. W. S. Currell, professor of English at Washington and Lee Uni versity, lectured to a large audience of students and citizens who were delighted, as Dr. Currell's audiences always are, with both the man and lecture. His subject was Principal of Suggestiveness in Literature and in Lafe.

"Some lectures simply amuse; they are often mainly thin. Some only instruct, they are apt to be dry. Dr. Currell has a body to his work that carries with it the very best and most selid instruction, but he has also the happy faculty, while interesting an audience, to be more than interesting -to be helpful-to a body of studeets. To use Dr. Currell's own term, he was eminently 'suggestive'."

SKATER'S NARROW ESCAPE.

James Egolf of Buena Vista was saved from drowning while skating on maid. the North river Friday near Buena Vista owing to the height of another skater. Egolf, who is rather short of statue, broke through the ice and went into the water over his head. He had gone down the second time when a tall man, something over six feet, and whose name could not be learned, to say city or town, like some other skated into the hole and seized the drowning man and held him up until help came and both were taken out The rescuer stood on the river bottom while saving his fellow skater, his head sticking above the water.

JOHNSTON BY ACCLAMATION SAM HOUSTON'S BIRTHPLACE.

While so much is being said of late as to the life and character of General Senatorial District was called to order Sam. Houston, I see nothing in regard at 8:30 P. M. to-day by W. F. Tinsley, to the place of his nativity or early

According to tradition-spanning a period of forty years-it is supposed credential, resolutions and permanent that your humble subscriber and Sam. Houston, afterwards of Texas fame, were born and partly reated in the same house. I was born in 1837 in what divided on the question of seating the was then known as the old "Houston delegates from Buena Vista and five house", which was a story and a hall cottage, with little dormer windows, and stood near the old stone church at Timber Ri |ge. This place was pur-W. R. Allen, of Botetourt county was chased from the Houstons by my grandfather, John Kinnear, and in the distribution of his estate it fell to his daughter Eliza, who was my mother. This house was torn away in 1866 and a substantial brick structure was reared on the site.

The house referred to must have been a very old one. The weatherboarding, made of the most durable yellow poplar, had been worn to the thiuness of pasteboard; all the nails used in its construction seemed to have been made by hand, even to the lathing nails, as the heads were very large and i regular. There was a thin person receiving the second highest partition running through the house of tongue being teveled back fully one and a half inches.

This same tradition, spanning the period from Houston's birth to my own-exactly ferty years-speaks of his eccentricities. He was said to be a very tall youth, and in order to leave fication, without directly so stating. an indelible mark of his height, on one The bill provides for the removal of occasion he stood with his back against the judge, or constable, from the booths, the partition and sent a pistol ball through it just above his head. I remember my father telling me this little incident in Houston's life, and holding me up, when a small tot to stick my

finger through the hole. This hole was a familiar mark to me during my early life. I well remember strangers from a distance calling to examine this traditional mark. If Mrs. Houston moved with her nine year old son to Tennessee where he figured so agton and Lee University. Hon. I know nothing of his subsequent life except what I have gleaned from recent articles in the newspapers. JOHN A. THOMPSON.

ELECTION LAWS.

In the Senate Monday Senator Barksdale introduced a bill to prevent the use of money in elections. This bill is based on the Missouri statute, and is much more stringent than the former bill on the same subject offered by Senator Barksdale at the opening of session. Among the provisions is one to the effect that if the candidate on a ticket who is next to the one elected. he may institute proceedings and have the successful sandidate ousted if it shall be proven that money was used to accomplish his election, and the number of votes shall be awarded the rights and privileges and shall assume the duties of such office, provided it shall not appear that the second high-est man did not use money in his election.

In the House Monday Messra Powell and Barclay introduced & amendment to the election law, which seeks to impose an educational qualiand leaves the illiterate voter to mark his ballot unaided. The bill provides or the appointment of a supervisor from each political party represented in the election, who shall enter the booths and mark ballots for all electors who are blind or otherwise physically disqualified from performing this service for themselves, but these supervisors shall mark ballots for none other. The judges are to pass on the physical isqualification before the supervisor may act.

#### Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.
The kidneys are your blood purifiers, they fil-ter out the waste or impurities in the blood.
If they are sick or out of order, they fall to do

their work.
Pains, aches and rheumatism come from ex-cess of urlc acid in the blood, due to neglected

kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble because the heart is over-working in pupping thick, kidneys poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but how modern eithers and arteries. but now modern science proves that nearly all constitutional diseases have their begin-ning in kidney trouble.

If you are sick you can make no mistake

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fiftycent and one-dollar sizes. ### After Christmas---A Cloak Sale.

The simple statement that we have decided to have a cloak sale may not convey to your mind the economic importance of the event, so to further emphasize the matter we would explain that this sale means a radical reduction of price on every garment in the stock. It means that the profit making season is over in this store. It means that we shall at once proceed to turn the cloak stock into cash, and we're going to do it at a big sacrifice.

There's little sentiment about it; just plain business judgment which prompts us to hand out these handsome garments to you at (in many cases) less prices than the cost of production

With nearly four months of wearing weather before you, this chance is not to be missed. So from this date the jackets and capes on hands will be at one-third off. That is, if a cloak sold for \$9.00, will now be sold for \$6.00; if sold for \$7.50, it will now be sold for \$5.00, and so on. At these prices I lose money and will expect cash down. Remember this is not a cheap, trashy lot of cloaks, but a splendid line of tailor-made garments. If you are interested at all

don't wait, for if you defer the matter you may miss your chance.

I also wish to state that I do not expect to handle lactice' or men's shoes—wanting the room and the money invested in them for something else. To wind up the stock and clean out everything in shoes at once I am going to make some awful cuts. This does not apply to rubber goods. So if you need a pair of shoes give me a trial. I may have just what you want. If so, the price will be much below
